 2.2" suction cup for disassembling smartphones 4,66 €	 Display tablet Alcatel One Touch Pop Pixi 7 5,81 €				

Step 1 - Alcatel One Touch Pixi 7

ALCATEL ONETOUCH PIXI 7 tablet features:

- 7-inch and 960 x 540 screen, QHD, TFT
- Three 1.2GHz cores
- 2840 mAh, up to 4 hours of browsing time
- VGA front camera and 2.0 megapixel rear camera
- Android 4.4 KitKat

Before starting, make sure the tablet is off.

Step 2 - Back cover

Remove the back cover with the plastic opening tool, thus avoiding scratches or damage to the equipment.

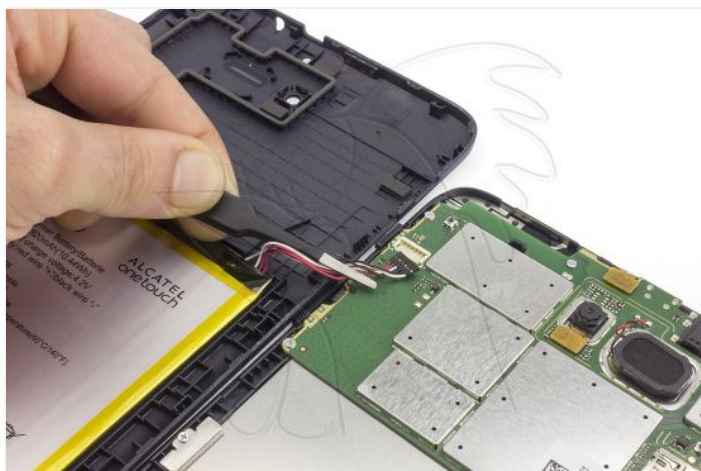

Step 3

The battery is attached to the back cover and connected to the motherboard.

Step 4

Disconnect the battery from the motherboard and detach the back cover.

Step 5 - Touch screen and display

Disconnect the data flex from the touch screen, by pulling the connector tab and pulling gently.

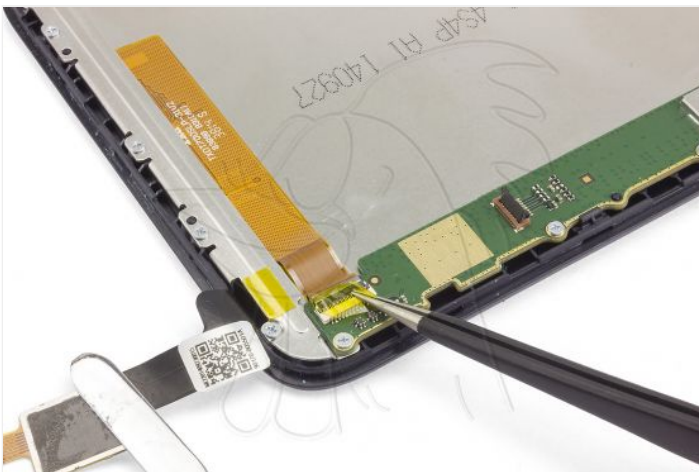

Step 6

Remove the adhesive tape that covers the connector of the display data flex.

Disconnect the flex, just as you disconnected the touch screen.

Step 7 - Front camera

Unplug the front camera.

Step 8 - Base plate screws

Remove the 9 Phillips screws that hold the motherboard.

Step 9

Remove the base plate, prying gently with the opening tool.

Step 10 - Screws

Remove the 8 Phillips screws that hold the display.

Step 11

Remove the metal anchors that hold the display and the flex respectively.

Step 12 - Display

Finally, separate the display by sucking with a suction cup.
