0,51 €

Step 1 - Tray yes

First we extract the sim tray.

Step 2 - Back case

With the help of a pick and a suction cup we remove the back cover.

Step 3 - Intermediate housing

Remove the 9 Phillips screws (PH # 00) that hold the intermediate housing and remove it.

Step 4 - Frontal camera

We removed the front camera.

Step 5 - Components

We disconnect all the components that are connected to the motherboard.

Step 6 - Motherboard

Remove the Phillips screws (PH # 00) that hold the plate, and remove it.

Step 7 - Flex with side push buttons

We remove the armor that is above the flex, and we can remove the side keys that we are going to replace.
