Black fingerprint reader button for Xiaomi Mi Mix 2

3,90 €

SIM card removal tool for all brands

1,61 €

Opening tool Smartphone, tablet

2,19 €

Set with screwdriver and 6 bits BST-8927B

8,82 €

Professional Opening Tool, iSesamo

6,59 €

Suction cup to separate smartphone screens

4,36 €

Step 1 - Tray

First of all we will have to remove the tray from the cards.

Step 2 - Back case

We take off the back cover, using suction cups and a tool that is thin enough to unhook the casing.

Step 3 - Intermediate housing

We extract the ten Phillips screws (PH # 00) that hold the intermediate housing to be able to remove it.

Step 4 - Back case

We disconnect the flex from the fingerprint reader.

Step 5 - Fingerprint reader

To detach the fingerprint reader from the back case we will use a tool that is thin enough.
