Click on a tool for visit the website.

BK-7275 (A Version)
5 in 1 screwdriver

6,41 €

Opening tool
Smartphone, tablet

2,19 €

Pinza antiestática
ESD redondeada

3,06 €

Step 1 - Back case

To start we will remove the back cover.

Step 2 - Drums

We remove the battery.

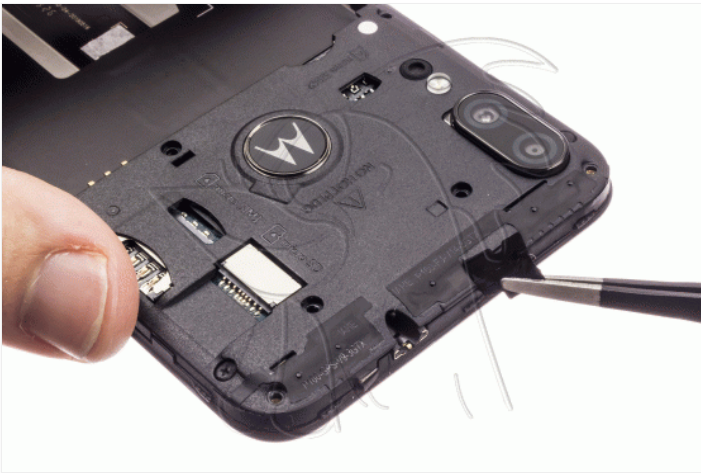

Step 3 - Intermediate housing

We remove the five Torx screws (T4) and the two Phillips (PH # 00) that hold the intermediate housing, remove the stickers that are on the edges and we can unhook the housing.

When you remove the adhesives check that they are adhesives and not the antennas.

Step 4 - Fingerprint reader

We disconnect and extract the fingerprint reader that we have to change.
