5,63 €

BK-7275 (A Version)  
5 in 1 screwdriver

6,41 €

SIM card removal tool for all brands

1,61 €

Opening tool  
Smartphone, tablet

2,19 €

Special SAT 0.75mm  
high friction PVC pick

1,07 €

### Step 1 - Tray

First we will remove the card tray.

## Step 2 - Back case

We take off the back cover with the help of a plastic pick, and with a finger we will press the fingerprint reader and take it off.

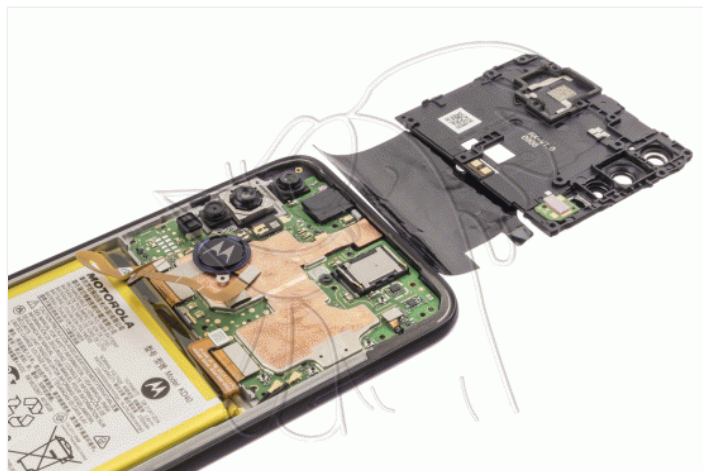

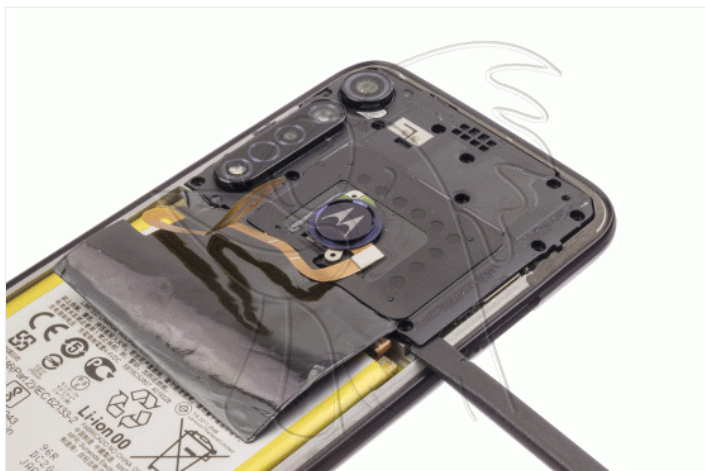

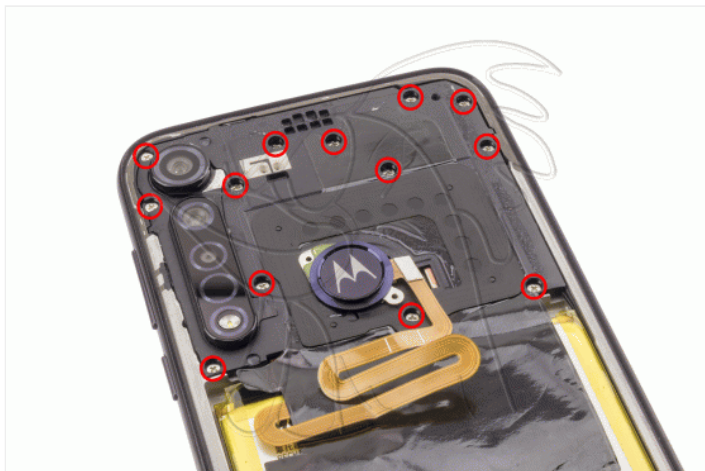

You can apply a little heat to soften the adhesive that holds it, and so you can peel it off more easily.

### Step 3 - Intermediate housing

We remove the thirteen Phillips screws (PH # 00) that hold the intermediate casing, and with the help of a flat tool we will unhook it.

### Step 4 - We disconnect battery

We disconnect the battery to work with greater security.

## Step 5 - Fingerprint reader

Now we can disconnect the damaged fingerprint reader that we are going to replace.
