Dimensions: 153.5 x 78.6 X 8.5 mm

Weight: 176 grams

Extras: Cardiac sensor, fingerprint reader, ultraviolet ray sensor, blood oxygenation measurement and IR emitter

Step 2

Before starting to disassemble we remove the digital pen from the bottom of the phone.

Step 3 - Back case

As always, to begin with, we will remove the back cover. We will use a plastic opening tool to separate the case without scratching or damaging the terminal.

Step 4 - Battery

Finally, removing the battery will be as simple as lifting it with the help of a tool or with your hands.
