Porque Yo Lo Reparo

## Step by step tutorial: of Energy Phone Pro 4G Navy Battery

For this tutorial you will need the following spared parts and tools that you cant get at our online store [Impextrom.com](http://Impextrom.com)  
Click on a tool for visit the website.

Head made of synthetic carbon steel with titanium handle

18,63 €

Heat-opening thermal mat, CPB320

69,61 €

Screwdriver with 8 heads Peng Fa 7339A

6,96 €

Opening tool Smartphone, tablet

2,19 €

Flexible plastic card for easy opening

0,98 €

### Step 1 - Remove back cover

We will heat the back cover of the phone to soften the adhesive that holds it. Heating it to about 60 ° C for about 1 minute should be enough.

We will introduce an opening tool between this and the frame and sliding it around the contour, we will eliminate the adhesive.

## Step 2 - Intermediate housing

Remove the seven Phillips screws (PH # 00) that hold the housing and then undo it.

Step 3 - Battery

To finish, we disconnected the battery and detached it from the chassis.
