ESD redondeada

3,06 €

Special SAT 0.70mm
PET pick, high friction
and resistance

1,25 €

Suction cup for
disassembling and
repairing

0,51 €

Step 1 - screen

We apply heat to the screen to soften the glue, and with the help of a suction cup we will lightly lift the screen to introduce the spike and go unsticking all the edges of the screen.

Step 2 - Fullscreen

Remove the 2 Phillips screws (PH # 00) and disconnect the flex from the screen.

Step 3 - Armor

Remove the 2 Phillips screws (PH # 00) that hold the shield in order to remove it.

Step 4 - Frontal camera

We disconnect and take off the camera that we are going to replace.
