Porque Yo Lo Reparo

Step by step tutorial: of Amazon Fire Rear camera

For this tutorial you will need the following spared parts and tools that you cant get at our online store Impextrom.com
Click on a tool for visit the website.

Opening tool
Smartphone, tablet

2,19 €

Pinza antiestática
ESD redondeada

3,06 €

Step 1 - Back case

First of all we must unhook the back cover, for this we will use a flat tool with which we will unhook all the edges of the casing.

Step 2 - Rear camera

Disconnect the damaged camera and remove it with the help of a pair of tweezers.
