5 in 1 screwdriver

6,41 €

Opening tool  
Smartphone, tablet

2,19 €

Set of professional  
tools for opening  
smartphones and  
tablets

18,97 €

### Step 1 - Back cover

First of all we will apply heat to the back cover, and with the help of a flat opening tool we will gradually take off the entire lid.

## Step 2 - Back case

We extract the nine Phillips screws (PH # 00) that hold the back shell, and with the help of a fine tool we will unhook the entire back shell.

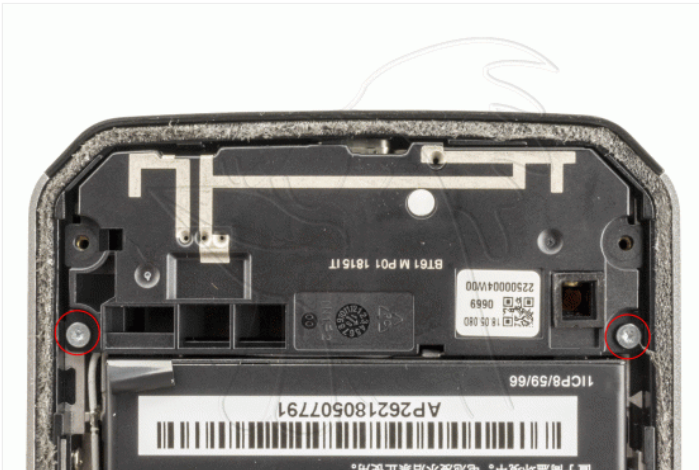

### Step 3 - Antenna module with speaker and vibrator

Remove the two Torx screws (T5) that hold the module, and with an opening tool we will unhook the antenna module with loudspeaker.

## Step 4 - Auxiliary plate

We disconnect all the components that are connected in the auxiliary plate, extract the two Phillips screws (PH # 00) that hold the area of the charging connector, and with the help of a fine tool we will remove the auxiliary plate that we have to change.
